

RESPIRATORY PROTECTION

FFP1

FFP1 DUST-PROOF MASK WITH A VALVE AND AN ACTIVATED CARBON LAYER

PRODUCT FEATURES

MATERIAL: Multi-layered filtration material. Designed for work conditions where the dispersed phase concentration does not exceed 4 x TLV. The activated carbon layer reduces the adverse effects related to odours. Multi-layered filtration material protects the respiratory system. Nose clip and polyurethane foam seal guarantee comfortable use. The valve facilitates air exhalation. The head straps made from braided rubber threads ensure perfect fit of the mask to the face. Head strap clips ensure smooth adjustment. **STANDARD:** EN 149.
